Bengaluru, Karnataka, India

SUMMARY

Data Analyst with experience in data cleaning, data management, and analysis using Python, SQL, and Excel, completed by the Google Data Analytics Professional Certificate. Skilled in data validation, reporting, and visualization using Pandas, Matplotlib, Seaborn, and Tableau. Experienced in analyzing retail and healthcare datasets to support data-driven business decisions.

EDUCATION

KLS Vishwanathrao Deshpande Institute of Technology

Haliyal, Karnataka

Bachelor of Engineering in Computer Science | CGPA: 8.06

2020 – 2024

SKILLS

- **SQL:** Advanced joins, CTEs, Subqueries, Aggregations, Window functions
- **Excel:** Pivot tables, Dashboards, KPI Tracking, Data Validation
- **Power BI:** Data Modeling, DAX Measures, Interactive Dashboards
- **Python:** Pandas, NumPy, EDA, Data Cleaning, Visualization
- **Visualization:** Power BI, Tableau, Matplotlib, Seaborn
- Communication, Detail-Oriented, Data Reporting, Business Insights, Problem-Solving

WORK EXPERIENCE

Arctictern Solution Private Limited | Artificial intelligence

June 2024 – July 2024

- Performed data cleaning on structured datasets by handling missing values, duplicates, and inconsistencies
- Managed datasets by standardizing formats, correcting data errors, and maintaining data integrity
- Conducted data validation checks to ensure accuracy, completeness, and consistency of data

PROJECTS

Hospital Data Analysis (SQL Project)

- Performed data cleaning and data validation to ensure accuracy and consistency
- Used advanced SQL queries including CTEs and joins to analyze hospital patient and cost data
- Identified trends in encounter types, procedures, and payer contributions
- Generated reports to support healthcare cost optimization insights

Retail Sales Analysis

- Cleaned and analyzed retail sales data using Excel and Python
- Identified top products, revenue trends, customer purchasing patterns, and store performance
- Created dashboards to visualize sales KPIs, seasonal demand, and growth opportunities.
- Delivered actionable business insights to support decision-making

CERTIFICATES

Google Professional Data Analyst Certificate

November 2025

- Completed an 8-course program covering data cleaning, analysis, visualization, spreadsheets, SQL, R, Tableau.
- Built end-to-end analytical projects applying the full data lifecycle: ask, prepare, process, analyze, visualize, and share insights.
